### 12 13 STATEMENT OF FACTS

14 The Water System is classified as a community public water system with a population of  
15 80, serving thirty seven connections.

16  
17 CHSC, Section 116555(a)(1) requires all public water systems to comply with primary  
18 drinking water standards as defined in CHSC, Section 116275(c). Primary drinking water  
19 standards include maximum levels of contaminants, specific treatment techniques, and  
20 monitoring and reporting requirements as specified in regulations adopted by the State  
21 Water Board.

22  
23 CCR, Title 22, Section 64445(b) requires the water system to initiate quarterly monitoring  
24 for any chemical added to table 64444-A in January after the effective date of the maximum  
25 contaminant level.

Effective December 14, 2017, all community and nontransient noncommunity public water systems were required to monitor their active sources for 1,2,3-trichloropropane (hereinafter "1,2,3-TCP"), and report all sampling results to the State Water Board beginning with the first quarter of 2018 (January 1 to March 31, 2018). Initial monitoring to determine compliance with the 1,2,3-TCP maximum contaminant level (hereinafter "MCL") for 1,2,3-TCP consists of four quarterly samples beginning with the first calendar quarter of 2018.

The State Water Board's electronic water quality database shows that 1,2,3-TCP sampling results for the third and fourth quarters of 2018 have not been submitted for the well listed below:

| Primary Station Code | Source Name   |
|----------------------|---------------|
| 1000248-001          | Well 02 - Raw |

### DETERMINATION

The State Water Board has determined that the Water System has failed to comply with the CHSC, Section 116555(a)(1) and initial organic chemical monitoring requirements pursuant to CCR, Title 22, Section 64445 during the third quarters and fourth quarters of 2018.

### DIRECTIVES

The Water System is hereby directed to take the following actions:

1. Collect a 1,2,3-TCP sample during the second quarter of 2019 (April 1, 2019 - June 30, 2019) and the third quarter of 2019 (July 1, 2019 – September 30, 2019) from the raw water source listed in the table below and submit them to an appropriately accredited laboratory for analysis by a State Water Board-approved method. The analytical result of the sample must be submitted electronically to the State Water

Board, by the laboratory that conducts the analysis, no later than the tenth day of the month following completion of the analyses. The Water System must collect at least four (4) quarterly samples from each source listed in the table to remain in compliance with the initial monitoring requirements for 1,2,3-TCP. The Water System must submit proper Primary Station codes to the laboratory with the samples collected.

| Primary Station Code | Source Name   |
|----------------------|---------------|
| 1000248-001          | Well 02 - Raw |

2. By **March 31, 2019**, notify all persons served by the Water System of the violation of CCR, Title 22, Section 64445, in conformance with Sections 64463.4 and 64465. Copies of Sections 64463.4 and 64465 can be found at:

[https://www.waterboards.ca.gov/drinking\\_water/certlic/drinkingwater/Lawbook.html](https://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/Lawbook.html)

3. Complete Appendix 2: Compliance Certification Form. Submit it together with a copy of the public notification required by Directive 2 to the State Water Board by **April 15, 2019**.

All submittals required by this Citation, unless otherwise specified in the directives above, must be electronically submitted to the State Water Board at the following address. The subject line for all electronic submittals corresponding to this Citation must include the following information: Water System name and number, citation number and title of the document being submitted.

The State Water Board reserves the right to make modifications to this Citation as it may deem necessary to protect public health and safety. Such modifications may be issued as amendments to this Citation and shall be effective upon issuance.

Nothing in this Citation relieves the Water System of its obligation to meet the requirements of the California SDWA (CHSC, Division 104, Part 12, Chapter 4, commencing with Section 116270), or any regulation, standard, permit or order issued or adopted thereunder.

The California SDWA also authorizes the State Water Board to take action to suspend or revoke a permit that has been issued to a public water system if the public water system has violated applicable law or regulations or has failed to comply with an order of the State Water Board, and to petition the superior court to take various enforcement measures against a public water system that has failed to comply with an order of the State Water Board. The State Water Board does not waive any further enforcement action by issuance of this Citation.

### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.

#### 1,2,3-Trichloropropane Monitoring Requirements Not Met for Double L Mobile Ranch Park During Third and Fourth Quarters 2018

Our water system recently failed to monitor as required for a drinking water standard during the third and fourth quarters of 2018 and, therefore was in violation of the regulations. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we did to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the third and fourth quarters of 2018, we did not collect 1,2,3-trichloropropane (1,2,3-TCP) samples from the source listed in the table below and therefore, cannot be sure of the quality of our drinking water during that time.

#### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant we did not properly test for during the compliance period of second and third quarters of 2018, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples will be taken.

| Contaminant | Required sampling frequency                        | Number of samples taken | When all samples should have been taken | When samples will be taken |
|-------------|--|-------------------------|---|----------------------------|
| 1,2,3-TCP   | 1 quarterly sample was due in each quarter of 2018 | None                    | During Third and Fourth quarter         |                            |

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.
